EDUCATION

Embry Riddle Aeronautical University (ERAU) Daytona Beach, May 2029
Bachelor of Science in Aerospace Engineering **CGPA: 4.00/4.00**

PROJECT EXPERIENCE

Sarath Mk.3M/9M

- Designed and developed the SARATH Mk.9M glider from concept to prototype under strict material constraints.
- Applied aerodynamic analysis and used Aery32 to optimize airframe stability and enable future design modifications.
- Conducted iterative flight testing with experimental design changes to evaluate performance and validate configurations.
- Documented design iterations and test results in technical reports; achieved an 83-ft glide distance with stable yaw and roll performance.

Slingshot Aeronautics – Project 337

- Designed the fixed-wing airframe (5 ft wingspan, 3 ft fuselage) for an autonomous medical-delivery drone, producing a finalized full CAD model in CATIA V5 and Fusion 360.
- Integrated subsystem contributions from the engineering team into a single cohesive aircraft model, resolving structural, propulsion, and avionics interface conflicts.
- Ran an XFLR5 aerodynamic analysis to validate dihedral and stability parameters, then iterated on the airframe design to resolve resulting issues

Independent Concept Design: Aircraft and Armored Vehicle Systems

- Created and modified detailed civilian and military aircraft and tank drawings, adapting each for specific purposes and scenarios.

WORK EXPERIENCE

Undergraduate Researcher Feb 2026 - Present

Computational Fluids and Aerodynamics Laboratory (CFAL) – ERAU

- Running external aerodynamics CFD simulations in Simcenter STAR-CCM+ on airfoil and wing geometries, building working knowledge of mesh generation, boundary conditions, and solver parameter effects on solution accuracy.
- Present technical findings in research meetings, strengthening technical communication skills.

SKILLS

CAD: CATIA V5, Autodesk Fusion 360, SolidWorks
Programming: Python, SQL, MATLAB
Software: MS Office**,** STAR-CCM+**,** XFLR5, Aery32

LEADERSHIP AND INVOLVEMENT

- Selected Participant, **Boeing Engineering Fundamentals**, Sept 2026
- Co-Founder and Flight Lead**, Slingshot Aeronautics**, Jan 2026 - Present
- Participant, **Intel AI for Youth Course**, Aug 2024

AWARDS

- **Dean's List, ERAU**, Fall 25', Spring 26'
- **Presidential Scholarship, ERAU**, Fall 25', Spring 26'
